DETAILED ACTION

1. This action is the first on the merit of the instant application.
2. Claims 1064 are pending in this action.
3. Claims 1-64 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please amend the claims as follows:

In claim 44, line 25, next to the word having, replace "the" with --- a --

Allowable Subject Matter

Claims 1-64 are allowed.

The following is an examiner's statement of reasons for allowance:

As per claims 1-64: the claims are directed to a mobile terminal, comprising a de-multiplexer and a decoder, for receiving and processing a digital multimedia broadcast and voice/telephone call, wherein the multimedia digital signal includes a compressed

audio signal. The prior art of record does teach or fairly suggest the technique of controlling the decoder to discontinue decoding/processing of the audio signal and decode/process the voice signal when a voice signal is requested and vice versa. In other words, the audio processing portion of the multimedia receiver is interrupted, when a telephone call is requested in the presence of the multimedia signal, so as to output the requested telephone call using the audio processing portion of the multimedia audio processor, as recited in claims 1, 14, 24, 34 and 44.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
